

AMI Bar Link leverages mobile devices to give music fans even more ways to interact with your AMI jukebox. Cool features like the location finder, playing their favorite songs without leaving their seats, and even creating a favorite song list, make it easier than ever for patrons to make your AMI jukeboxes part of their night out.

how to benefit from ami bar link

Your AMI jukebox must be registered correctly to benefit from the AMI Bar Link app. Registration is quick and easy.

- Simply log in to the AMI jukebox operator site (www.amientertainment.net)
- Click on the "Locations" tab
- For each location, please click on the location name, confirm that the address is correct and that the "Mobile Enabled" box is checked.

This may take a moment, so please be patient. Accurate information is necessary for patrons to find your jukeboxes while using AMI Bar Link or the Location Finder.

operator features

- Patrons can view favorite, recently visited, and nearest locations, helping music fans find new jukeboxes and keeping them coming back to their favorite spots
- Patrons check into a location, NOT the jukebox, allowing them to see other promotions going on at that location
- Correct registration with AMI is all that it takes to make your machine visible to patrons on the Bar Link app and the AMI location finder
- Patrons can use Priority Play to bump their song up in the queue for an additional charge
- Updated operator reporting screens show mobile revenue

patron features

- Log in to the app with their Megatouch Live username and password
- Retrieve forgotten passwords with an iPhone/iPod touch or Android device through a registered email address or through a ML-1 machine
- Find AMI jukeboxes in their area or in another city
- View what song is currently playing on the jukebox, the Top 40 selection, and a list of 1-credit songs
- Create a list of their favorite songs to access from AMI locations
- View the name, artist, and album cover art of the current song
- Pay through their phone by adding money to the App Wallet
- Patrons can play as many or as few songs as they want
- Check to see if their song has played yet
- In addition to jukebox features, patrons can also use the app to check their Megatouch Live score and edit their Megatouch Live account settings
